

optical_component.Refractor.out
_light_beam

```
graph LR; A["optical_component.Refractor.out_light_beam"] --> B["optical_component.sign"]
```

A diagram illustrating a data flow. On the left, a gray rectangular box contains the text 'optical_component.Refractor.out_light_beam'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'optical_component.sign'.

optical_component.sign
